STATEMENT OF PROPOSAL

DANGEROUS, AFFECTED AND
INSANITARY BUILDINGS POLICY

waikatodistrict.govt.nz

0800 492 452

This Statement of Proposal is made
for the purposes of Section 83
of the Local Government Act 2002 and
Section 131 and 132 of the Building Act 2004.

It includes:

- Background to the proposal
- Reasons for the proposal
- 'Have your say' details

BACKGROUND

Under Section 131 of the Building Act 2004 (the Act) all territorial authorities are required to adopt a policy on dangerous and insanitary buildings. Waikato District Council adopted such a policy in 2006. In 2013 the Act was amended to require councils to also consider 'affected buildings' in their policies. Council last reviewed this policy in 2018, and it is now time for us to do so again. The proposed policy is intended to replace the Dangerous, Affected and Insanitary Buildings Policy 2018.

The provisions of the Building Act 2004 reflect the government's broad concern with public safety in buildings and the need to reduce the danger to the public posed by dangerous and insanitary buildings.

The Act requires Council to develop and adopt a policy for the management of these buildings but provides discretion in the approach to be adopted and implementation of the policy. This policy is Council's response to the requirements of the Act.

The policy sets out Council's response to the policy requirements of the Act in relation to Dangerous, Affected and Insanitary buildings.

THE PROPOSED POLICY

While there are no substantial changes from the 2018 Policy being proposed for this review, the Act requires we undertake a Special Consultative Procedure at least once every five years to review the policy. We have updated the policy to reflect small shifts in the Act and the renaming of the New Zealand Fire Service to Fire and Emergency New Zealand.

Council's policy includes:

- The approach that Council will take in performing its functions under the Building Act 2004.
 - Council's priorities in performing those functions.
 - How the policy will apply to heritage buildings.
-

HOW YOU CAN HELP US

What we're doing now

The proposed policy sets out:

- how we define dangerous, affected and insanitary buildings;
- how we approach the management of dangerous, affected and insanitary buildings;
- how we respond to complaints about potentially dangerous, affected or insanitary buildings;
- how we interact with the related sections of the Act (specifically how we apply the principles of the Act);
- how we deal with the impacts of the policy; and
- how the policy is applied to heritage buildings.

What we'd like to know

The Dangerous, Affected and Insanitary Buildings Policy 2023 is how Council is responding to the requirements of Sections 131 and 132 of the Building Act 2004.

Is there anything about our policy approach that you would like provide feedback on?

SUBMISSIONS CAN BE:

ONLINE:

www.waikatodistrict.govt.nz/sayit

POSTED:

Waikato District Council
Private Bag 544
Ngaaruawaahia 3742

DELIVERED:

Waikato District Council
Attn: Policy Advisor
15 Galileo Street, Ngaaruawaahia
3742

Huntly Office
142 Main Street, Huntly 3700

Raglan Office
7 Bow Street, Raglan 3225

Tuakau Office
2 Dominion Rd, Tuakau 2121

Te Kauwhata Office
1 Main Road, Te Kauwhata 3710

EMAILED:

consult@waidc.govt.nz
Subject heading should read:
"Dangerous, Affected and
Insanitary Buildings Policy –
Submission"

WHAT HAPPENS NEXT?

Council will acknowledge each submission
received in writing, either by letter or email.

Following the closing of submissions on 22 September 2023, all submissions
will be reviewed. Verbal submissions will be heard and all submissions formally
considered at a Policy and Regulatory meeting on 3 October 2023.
This meeting is open to both submitters and the public to attend.

IMPORTANT DATES TO REMEMBER:

SUBMISSIONS OPEN – 23 August 2023

SUBMISSIONS CLOSE – 22 September 2023

HEARING OF SUBMISSIONS – 3 October 2023

If you have any further queries or would like further
copies of the proposed policy, please contact
Toby McIntyre on 0800 492 452.

Dangerous, Affected and Insanitary Buildings Policy

Policy Owner:	Building Quality Manager
Date approved:	XX
Next review date:	September 2028
Document number:	XX
Required by legislation:	Sections 131 and 132 of the Building Act 2004

I Introduction and Background

1.1 Under Section 131 of the Building Act 2004 (the Act) all territorial authorities are required to adopt a policy on dangerous and insanitary buildings. Waikato District Council (Council) adopted such a policy in 2006. In 2013 the Act was amended to require councils to also consider 'affected buildings' in their policies.

1.2 This Policy replaces Council's Dangerous, Affected and Insanitary Buildings Policy 2018.

1.3 Legislative Provisions

A building is defined as being dangerous in Section 121 of the Act if in the ordinary course of events (excluding the occurrence of an earthquake), the building is likely to cause:

- a) injury or death (whether by collapse or otherwise) to any persons in it or to persons on other property; or
- b) damage to other property; or
- c) in the event of fire, injury or death to any persons in the building or to persons on other property is likely.

A building is defined as affected in Section 121A of the Act if it is adjacent to, adjoining or nearby:

- a) a dangerous building as defined in section 121; or
- b) a dangerous dam within the meaning of section 153.

A building is defined as insanitary in Section 123 of the Act defines if it:

- c) is offensive or likely to be injurious to health because:
 - i) of how it is situated or constructed; or
 - ii) it is in a state of disrepair; or
- d) has insufficient or defective provisions against moisture penetration so as to cause dampness in the building or in any adjoining building; or
- e) does not have a supply of potable water that is adequate for its intended use; or
- f) does not have sanitary facilities that are adequate for its intended use.

2 Purpose

2.1 This document sets out Council's response to the policy requirements of the Act in relation to Dangerous and Insanitary buildings.

2.2 The policy includes:

- The approach that Council will take in performing its functions under the Building Act 2004.
- Council's priorities in performing those functions.

- How the policy will apply to heritage buildings.

3 Application

- 3.1 The provisions of the Building Act 2004 reflect the government's broad concern with public safety in buildings and the need to reduce the danger to the public posed by dangerous and insanitary buildings.
- 3.2 The Act requires Council to develop and adopt a policy for the management of these buildings but provides discretion in the approach to be adopted and implementation of the policy. This policy document is Council's response to the requirements of the Act.

4 Policy statements

4.1 Policy Approach

- 4.1.1 It is intended that Council will maintain a reactive approach to the management of dangerous, affected and insanitary buildings. Identification of these types of buildings is particularly difficult as a building's external appearance does not necessarily reflect its internal condition. For this reason, Council will continue to be reliant upon external sources such as building occupants, neighbours, police, fire service and other agencies to inform them of dangerous, affected and insanitary buildings.
- 4.1.2 Once a building has been brought to Council's attention, Council will then actively engage in inspection and assessment of the buildings condition in terms of the Act. Following confirmation of a buildings status as being dangerous, affected or insanitary, Council will actively work with building owners to find a mutually acceptable solution before exercising its powers under the Act.
- 4.1.3 Council will, however, exercise its statutory powers under Section 124 of the Act where action is required to avoid immediate danger or in circumstances where an acceptable solution cannot be reached with the building owner. Council will not actively inspect all buildings within the District but will make it a priority to quickly and efficiently respond to information received regarding potentially dangerous, affected and insanitary buildings.

5 Responding to Complaints about Potentially Dangerous, Affected or Insanitary Buildings

- 5.1 Once Council has received information regarding a potentially dangerous, affected or insanitary building it will:
 - Check the details of the property against Council records.
 - Have an authorised officer undertake an inspection of the building in question. In doing this, Council may seek advice from Fire Emergency New Zealand, or any other professional deemed appropriate by Council.
 - Prepare an inspection record.

5.2 Assessment Criteria

All inspections of potentially dangerous, affected or insanitary buildings will involve assessment of the building's condition in terms of the definitions in Sections 121 and 123 of the Act and the current building code requirements. Inspection records will be prepared in all cases.

5.3 Taking Action on Dangerous, Affected or Insanitary Buildings

Council will review the inspection record and any information received from the Fire and Emergency New Zealand and consider Sections 124 of the Act by an authorised Council Officer.

- Where appropriate, try to work with the owner of the building to achieve an acceptable outcome.
- Where a mutually acceptable outcome cannot be reached, or where the situation requires, Council may invoke its powers under Sections 124, 126 or 129 of the Act.

5.4 Interacting with Building Owners and Complainants

Council will endeavour to work with property owners/occupiers. Warranted officers are not required to inform or obtain approval for inspections to determine whether or not a building is dangerous, affected or insanitary, unless the building is a household unit.

In these circumstances Council must either:

- a) obtain consent of the occupier of the household unit; or
- b) an order of a District Court.

Once Council has determined that a building is dangerous, affected or insanitary it will, in the first instance, consult with the owners of the subject building to further determine the circumstances and decide on an appropriate course of action. However, where the situation requires, immediate action will be taken without consultation with the building owner to remove danger or fix insanitary conditions.

Complainants will be informed of the inspection results and Council's intended course of action to deal with the situation.

5.5 Recording Information about Dangerous, Affected and Insanitary Buildings

All information relating to dangerous, affected and insanitary buildings will be filed on the relevant property file. This will include a copy of the original inspection record and any further action taken. This information will also be included on any LIM prepared for the property.

6 Interaction with Related Sections of Building Act 2004

In exercising its powers under the Act in relation to dangerous, affected and insanitary buildings Council will be guided by the purpose of the Act and the principles of its functions as set out in Section 4.

Particular regard will be given to:

- harmful effects on human health; and
- special cultural, traditional or heritage aspects of a building; and
- protection of other property from physical damage resulting from use of a building; and
- preservation of buildings of significant cultural, historical or heritage value.

When issuing building consents Council will also consider any requirements relating to dangerous, affected and insanitary buildings.

7 Impacts of the Policy

Implementation of this policy will have beneficial effects on the health and safety of people using buildings. The policy provides a clear framework of how Council will manage unsatisfactory building conditions. Implementation of this policy will raise people's awareness of the processes that are in place to address such building issues and empower people to raise concerns about buildings and have these concerns investigated.

The options available to Council under the Act to deal with dangerous, affected and insanitary buildings will be applied with discretion. The situation regarding each building will be different and Council will weigh up all elements when deciding what approach should be taken to deal with the situation and remove or minimise the danger the building presents. The cost of any action taken will be borne by the building owner.

8 Application of the Policy to Heritage Buildings

This policy applies to heritage buildings in the same way it applies to all other buildings.

Where Council receives information regarding buildings which have a heritage classification, either in the District Plan or under Heritage New Zealand, in addition to consulting with affected owners Council will consider seeking advice from Heritage New Zealand.

9 Policy review

This policy shall be reviewed at five yearly intervals or as otherwise required by the Chief Executive or the Building Quality Manager.
